Group assignment 1

Given a mini-world and come up with a data requirements document.

Note: The teams are the same as the project teams.

There are ten mini-worlds (numbered 1,..., 10), and the mini-world you assigned to you is:

i = (sum of the roll numbers of all members in your group)%(10) + 1.

For example, if the roll numbers in your group are 2020111079, 2020101099, 2020666050, then the mini-world, you are assigned is 9(same as the ones you filled in your forms).

The list of the mini-worlds and their web page link are given below.

Mini-World 1 - https://www.worldbeardchampionships.com
Mini-World 2 - https://eukonkanto.fi/en_GB
Mini-World 3 - https://www.bedrace.co.uk
Mini-World 4 - https://airguitarworldchampionships.com/en/home/
Mini-World 5 - http://olneypancakerace.org
Mini-World 6 - https://heavymetalknitting.com
Mini-World 7 - https://www.towerrunning.com/
Mini-World 8 - http://www.unicon19.kr/en/
Mini-World 9 - https://www.crufts.org.uk
Mini-World 10 - https://www.nailympia.com/about/

Requirements

1. Purpose of the database.
2. Users of the database.
3. Applications on the database.
4. Data requirements:
   a. Database Requirements
   b. Functional Requirements
5. Summary(Comments)
   a. Any of the objects

Refer to temp.docx for the template of the submission.

Note: There are lots of non database materials on the websites, you have to decide what goes to the database.

Submission

- One member per team must upload a PDF document (*<teamname.pdf>*).
- The requirements document can be at most three pages.

You need to understand the mini-world, and then decide what the data and functional requirements are. Have fun :)
